Series
KR

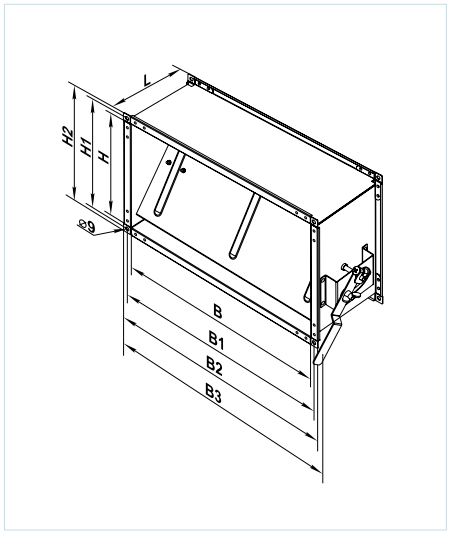

Applications
Air damper for air flow control in rectangular air ducts. Compatible with duct sizes 400x200, 500x250, 500x300, 600x300, 600x350 mm.

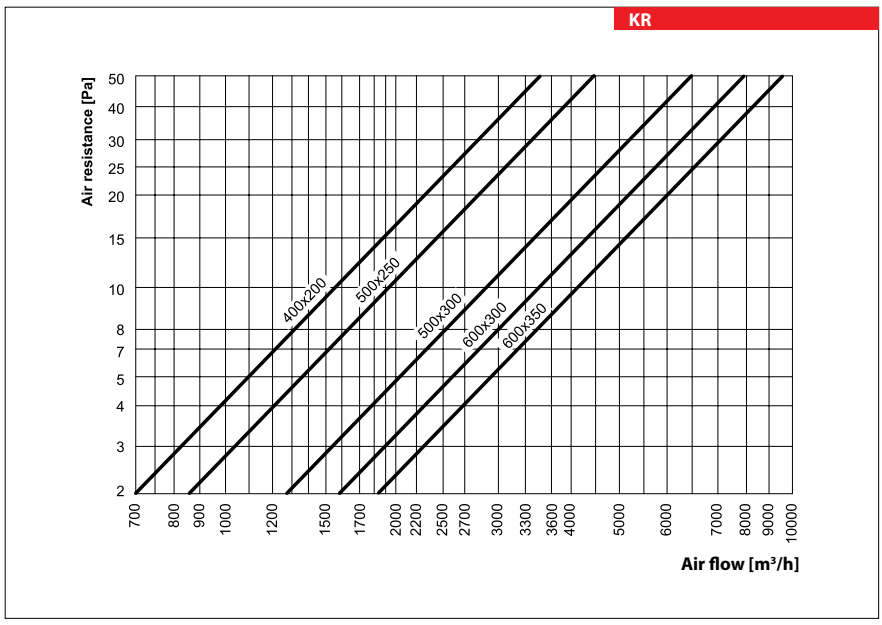

Design
The housing and the blade made of galvanized steel. Lever with metal handle and fixing clamp let fix the damper position with a butterfly bolt.

Mounting
Standard connection flange for rectangular air ducts or other ventilation system components.
Flanges should be connected with galvanized bolts and clamps.

Overall dimensions

Type	Dimensions [mm]								Mass [kg]
	B	B1	B2	B3	H	H1	H2	L
